

Agreement to Report All Drivers and Vehicles to Policies

This is a **POLICY REQUIREMENT** and a **POLICY CONDITON** for all insured's.

Below Required Before Coverage can become effective:

All drivers that may drive an owned, non-owned, or hired (leased, hired, rented, or borrowed) auto used in connection within the business of the Named Insured must be reported and approved prior to the insured putting the driver on the road.

This applies for any and all vehicles. All newly acquired Vehicles must be added to the policy with a driver and when deleting a unit you need to be deleting a driver.

A current and acceptable MVR must be submitted for approval for all drivers.

I understand the above stated conditions must be met prior to coverage becoming effective and will report all drivers upon hiring and adding vehicles.

Failure to do so may result in declination of claims.
